

When Molly was 2yrs old, she was diagnosed with stage 4 Neuroblastoma. This is a common childhood cancer however, it is hard to diagnose. Molly was given a slim chance of survival by the Doctors at Great Ormond Street.

Throughout her illness, Molly and her family were supported by Clic Sargent Nurses and Social Worker. They provided medical care, emotional and financial support. Without this wonderful support, Molly would have had to spend even more time in Hospital. Clic Sargent allows families more time at home together whenever possible.

Her cousin Leander is now about to shave off his luscious locks for this wonderful charity.

He would love you to support him to raise as much money as possible for Clic Sargent.

This will allow them to keep providing an excellent support for the families of children with cancer. If you would like to make a donation you can do so by visiting
